Funeral notices and cards of thanks, per line, first insertion 10
Each subsequent insertion, per line .05
Theatricals, shows of all kinds and entertainments will be charged for at the rate of \$4 for a week's advertising, including a four-inch display advertisement.

THURSDAY, MAY 14, 1914

IDIOTIC "HEROISM."

As recent dispatch states that while the President was visiting a reduction works in Arizona he incidentally expressed a desire to see a gold ingot. Whereupon a fellow employed in the minting department immediately seized a handful of bars and, grabbing a white hot gold brick, which had just been produced, transferred it from the mould to the iron table by which the President was standing. In making the transfer the accommodating workman's hands were burned so badly that he will be incapacitated for work for weeks and perhaps months. If not partially crippled for life. The dispatch generally reported the affair as a heroic act, stating that the man did not wince under the fearful pain experienced. In the opinion of all sensible persons the act was an idiotic and not a heroic one. Its diamonds to doughnuts that the man would not have performed it to save the life of a human being; to prevent the destruction by fire of the property of his employers or for any other humane or laudable purpose. He was prompted solely by his slavish and sycophantic nature, with the hope of winning an approving smile from a man who happens to be the temporary chief executive of the nation and who now probably regards him as the champion numbskull of the republic. President McKinley should manifest his appreciation of the fellow's zeal by using his powerful influence to have him comfortably bestowed in the idiot ward of an insane asylum, or at least securing his election as president of a noted institution at Europe in this State, known as the "Damp-haul Infirmary."

IS IT WORTH THE CANDLE?

If the parliament of Great Britain had been asked to pay \$733,000,000 for the Boer possessions in South Africa, what a howl of derision would have arisen! And yet that amount has been raised in taxes and loans for the prosecution of war, and the people have suffered almost as much in individual losses and damage to property and business. Still the end of the contest appears no nearer at hand than when it first commenced. American pride would cause us to hesitate to publish the exact figures of the cost of our Spanish and Filipino wars, even if we had them at our pencil's end; but we will casually remark that with the multitude of millions in the Journal's coffers, rusting and seeking investment, we would long hesitate, and probably decline, to shell out the amount in exchange for Uncle Sam's interest in the yet unconquered territory. We say "yet unconquered" reluctantly, but advisedly, for notwithstanding the announcements that the Philippine war was positively ended more than a month ago when Aguinaldo was captured, the amnesty offered long ago and extended last fall to May 1, as a final limit, has again been extended to July 1st. From this it would appear that in the opinion of the War Department, the end is not yet. War is a glorious institution and as a spectacular proposition, beats arbitration all hollow. It must be admitted, however that it is rather an expensive amusement, and a luxury in which none but the rich can afford to indulge.

THIRD TERM TALK.

The Journal is glad that President McKinley is making a tour of the Pacific States and Territories, even if circumstances or disinclination cause our little battle-torn commonwealth to be excluded from his itinerary. We believe that it is the duty of the Chief Executive, to familiarize himself with all sections, as far as possible, of the domain under his jurisdiction, the better to enable him to judge and act wisely in all official matters relative to the rights and interests of all portions of our common country. We are willing, moreover, to accord Mr. McKinley with such praise worthy motive in making his toilsome pilgrimage from the Atlantic to the Pacific seaboard. Some wicked Democratic editors in the east, however, do not hesitate to assert as an absolute fact that the President's trip through

SYRUP OF FIGS

NEVER IMITATED - QUALITY.
An Excellent Combination.
The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY NEW YORK, N. Y.
For sale by all Druggists - Price 50c per bottle.

mile trip is in the nature of a boom or a third term as ruler of this North American Republic. The matter is said to be gravely discussed in many quarters in the east, and that the question is really assuming a serious aspect. The melancholy failure of Grant's third term aspirations, it is asserted, does not seem to scare the present occupant of the White House even a little bit. His friends argue that the conditions are changed, that, during Grant's lifetime we were merely a nation, but that now we are an empire. The Journal, however, does not believe the wicked insinuation that some of these same friends are quietly working to establish an Emperor for the Empire. It may be true, as some of our eastern contemporaries assert, that they seriously argue that the situation is so entirely changed from what it was in the old days and that it would not be a dangerous experiment to elect a president for a third term. If their statements are true, they are evidently the result of several years' studentship in Hanna's training school, but, although our worthy President has probably taken an extended course in that educational institute, we can hardly believe that he aspired to or acquired the sublime degree of "Deo Hannarium," which would alone equip him for a three times candidacy, in opposition to the unwritten law, enacted by the people of the former Republic before it burst its shell, emerged from its hyaline condition and bloomed upon the world as a fully fledged, radiant and glorious Empire.

FOUR YEARS AGO May 1st was always to be observed as Dewey Day, much as Independence Day has been celebrated throughout the country for the last century. How much did you hear about it this year?

SOME PEOPLE will perhaps imagine that they see a string to ex-Senator Hill's denial that he is, or intends to be, a Presidential candidate in 1904, in his addendum: "No man can now tell what can or ought to be done in 1904."

VICE PRESIDENT ROOSEVELT has begun his campaign for the next presidential nomination at the hands of the Republican party. He has been in Boston, made his little speech and gone away with applause buzzing in his ears. It seems to be agreed among the papers of both parties that McKinley is not as good an itinerant speaker as Roosevelt, but perhaps he makes up in frequency what is lost in quality.

ENTERTAINING A MULTITUDE.

Reno is filled chuck-a-block. There are ten licensed hotels in the town and it is difficult to get accommodations anywhere. The restaurants, lodging houses and private boarding places are all doing a land office business. The town is over run with mining investors and men looking for work in the diggings. The former are very welcome and so are the latter, but there are more miners than positions at present, although later in the season there will probably be work for all at good wages. At present, however, the Journal advises people looking for work to bide a wee. Rev John J. Pender has been appointed to fill the pulpit left vacant by Rev G. H. Greenfield in Virginia City. It is reported on good authority that Col. Joseph Marzen has refused one hundred and sixty thousand dollars cash for his Humboldt stock farm. That is about fifty dollars per acre for his thirty four hundred acres with a little over a thousand under cultivation.

TARRED AND FEATHERED

A Reno Character Gets Summary Treatment From Truckee Vigilantes.

The Truckee "Six Hundred and One" tarred and feathered James Devlin at 1 o'clock yesterday morning. Warrants had been issued for several characters who have defied the vigilantes. Leroy Bates, a morphine fiend, was arrested Sunday night, and yesterday pleaded guilty to vagrancy in time to be taken to the county jail on the lightning train. He was sentenced to 150 days. Last evening Devlin was arrested and lodged in jail.

Shortly after midnight sixty armed and masked men surrounded the jail, broke the lock, with sledge hammers, and, putting a rope around Devlin's neck, led him half a mile out of town and gave him his choice between hanging and tar and feathers. A tramp, who had taken part in a gospel meeting on the street last night and who passed the hat in the crowd and then skipped, was also in jail and, with a rope around his neck, was made to accompany Devlin.

Both men received fair trials and witnesses were sent for and testified. The weird light of torches added a somber interest to the scene. As the tramp had collected no money he was only frightened pretty badly.

Both victims were taken to the depot, surrounded by masked vigilantes, who purchased tickets for them to Colfax. Both were placed on the 2.35 o'clock train yesterday morning. Devlin claimed Reno as a residence. He was known here as a macqueron and "strong arm" man. A week or two ago he was run out by the cops.

SAGEBRUSH OCCURRENCES

Interesting happenings in the State Cleared From Exchanges.

William Feezy, an old resident of Gold Hill, died at that place Sunday. The railroad shops at Carson are unusually busy lately on repair work.

It is said that ex-District Attorney Emmet Walsh of Ormsby county will locate in San Francisco, becoming a member of a law firm in that city.

Melvin B. Record, a well known resident of Humboldt and Lander counties in early days, died in the county hospital at Austin Sunday. He was 70 years of age.

There are two hundred and forty pupils at the Indian school.

Within ninety days an electric plant will be in full operation in Winnemucca.

William Ross, foreman of Senator Janigan's sheep ranches in Washoe county, returned to Reno last night. He was in Winnemucca several days on business connected with the Hank look case, the latter being accused of stealing a band of Janigan's thoroughbred sheep—Silver State.

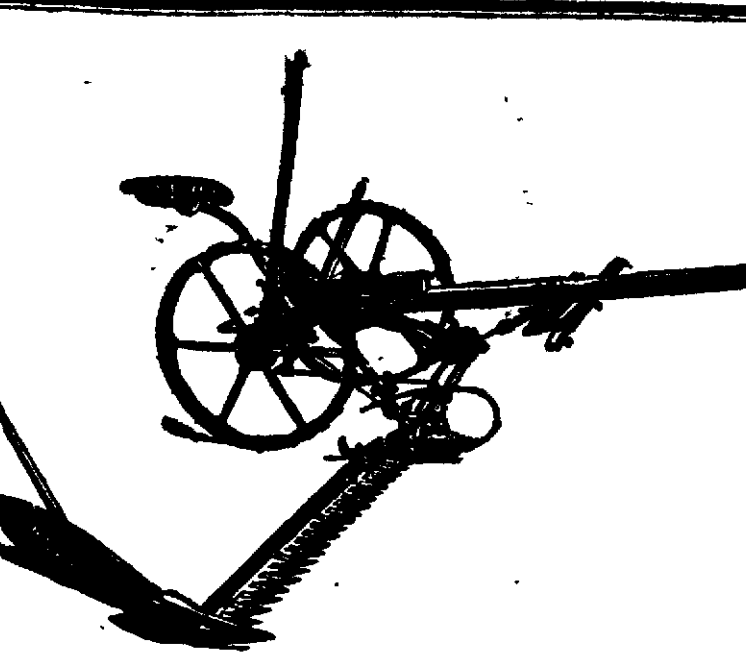

GIVING THEM THE RUN.

The officers say that more hard characters are dropping into and blowing out of town than at any previous time in its history. It speaks well for their intelligence that more depredations are not committed.

Ed Fowler is spending a few days in San Francisco.

Mrs. Shearer left last night for the east. She will be gone until the 1st of August.

A Dundero and children went to San Francisco last night.

J. R. BRADLEY CO., Agents.

TELEGRAPHIC

Mrs. McKinley Dying.

Special to the JOURNAL.
SAN FRANCISCO, May 16.—Mrs. McKinley is near death this morning. It is learned now that the President's wife may never leave this city alive. All plans for a visit to the northern Pacific coast have been abandoned and the President's party will start for Washington just as soon as Mrs. McKinley is able to travel. They will go by the Central Pacific. Practically the entire local program has been cancelled and the President remains by the bedside of his sick wife.

Situation Not Changed.

Special to the JOURNAL.
ALBANY, May 16.—After a day's conflict yesterday between troops and strikers, the situation is not materially changed. Many persons have been injured by charges of the militia and by stones thrown by the mob.

England is preparing to build at once three of the most powerful battleships in the world.

The Swiss have joined the Austrians in their boycott of American steel.

HORSE THIEF CAPTURED.

Constable Leeper left for Modesto this morning on the 12:45 train having been notified yesterday of the capture there of a horsethief by the name of Ed Kennedy.

Two years ago last September Kennedy stole a horse and saddle here. The former belonged to Charles Ward and the latter to Neal West. Officers Leeper and McNeilly tracked him for two days and nights and would have effected his capture had not Leeper's horse fallen on a slippery trail, breaking the officer's shoulder. Charlie expects to be back Saturday morning with his bird.

A Dundero and children went to San Francisco last night.

SHUDDERS AT HIS PAST.
"I recall now with horror," says Mail Carrier Burnett Mann, of Levanna, O., "my three years of suffering from Kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired, worn out, about ready to give up when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man." They're unrivaled to regulate stomach, Liver, Kidneys and Bowels. Perfect satisfaction guaranteed.
Sold by S. J. Hodgkinson.

IT SAVED HIS LEG.
P. A. Danforth, of LaGrange, Ga., suffered for six months with a frightful running sore on his leg, but writes that Bucklen's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world.
Sold by S. J. Hodgkinson.

BRYAN CITY BECOMING A LIVELY MINING CAMP

Two Splendidly Producing Properties and Other Very Promising Claims in the Vicinity.

Bryan City, the new mining camp located four miles northeast of Reno, is becoming one of the liveliest little camps in the state. The "city" consists of eight frame residences, several tents, three ore houses, boarding house, bunk house, shaft house and one or two other buildings in course of construction.

Two producing mines are operating in the camp and development work is being carried on upon a dozen others within a radius of a mile. Forty men are employed in the two principle mines. Work is carried on in eight hour shifts. Wages are \$3 a day.

The Wedekind, or Reno Star mine, is at present producing only two railroad cars of ore a week, as a great deal of dead work is being done preparatory to stopping, when the output will be between forty and fifty tons daily of ore running \$100 a ton.

The Bell mine is something wonderful, considering how little development work has been done. It is worked by means of a shaft 140 feet deep from the bottom of which a drift is being run south, cross-cutting the lead at an angle of about 30 degrees.

With only two men in ore on each shift the output is fifteen tons daily. The ore body is enormous. From what shows in the shaft and drift it is not less than fifty feet in width. The Journal localizer visited the workings yesterday. The ore is a decomposed or sedimentary rock, resembling quartzite or felsite. In places there are small bunches of calcite quartz and considerable white clay, similar to kaolin, is found. The formation carries a quantity of gypsum. The white matter is

showing up well in horn silver, although where it is given color by yellow chloride it is much richer. The best rock of all is stained green with carbonate of silver. One streak in the face of the drift shows what is probably antimonial silver.

No attempt is made to sort the ore. It is dumped from the bucket into the ore house and from there is shoveled into ore wagons without sacking. The teams are kept busy hauling the ore to the railroad. They make three trips a day at present.

Work has begun upon a new and larger shaft about sixty feet east of the present one. It will doubtless strike ore in two hundred feet if the present dip is maintained. A steam hoist is to be erected over it.

From observations in both the Bell mine and on the surface of the Wedekind diggings (the latter mine being still closed to visitors) the writer is of the opinion that the lead is striking northwest and southeast. It is dipping ward the southwest. For the first hundred feet from the apex on the Wedekind ground it lies pretty flat but rapidly turns up and in the Bell shaft it is inclined not over 40 degrees from the vertical.

A shaft is being sunk by George Wedekind only a few feet from the Bell shaft. The workmen are now so near together that they can converse and each force warns the other when a shot is about to be touched off.

It is understood that there is eleven feet of disputed ground where the claims adjoin. Eleven feet in that locality will probably be thought worth lawing over.

MINERS AND PROSPECTS

What's Being Done With Pick and Shovel in This Vicinity.

The Reno Chance Mining Company yesterday filed its articles of incorporation with the Secretary of State. It is capitalized for \$80,000. One per cent of this sum has been paid into the hands of the treasurer.

Thomas E. Phillips, the miner who was subdued last week at Bryan City by a shift mate, is on the road to recovery. The knife grazed his jugular.

A London expert is examining prospects in this vicinity.

A force was put to work on the Eastern Star yesterday.

Considerable water has been encountered in Smith & Kelly's mine at a depth of 55 feet.

The Electric Mining & Reduction Company is said to have made the last payment upon the Reno Reduction Works and now owns the plant.

It is reported that the Washoe county Miners' Union and the proposed Washoe county Mine Owners' Association are to be opposing forces. The organizers of the latter request the Journal to refute this allegation.

THE LAST ASSEMBLY.

The last General Assembly of the college year will be held in the University gymnasium on Thursday evening May 18th, at 8 o'clock.

The address will be delivered by Mr. J. Henry Dye, Professor in charge of the University Extension Class in Virginia City. The subject is "Korea."

The address will be illustrated by slides and lanterns under the management of Prof. N. E. Wilson.

Members of the Cater Band under the direction of Mr. Richard Tobin.

The public is most cordially invited to attend this last meeting of the General Assembly of the year.

CAVE WAY GRACEFULLY.

C. D. Van Duzer arrived from San Francisco yesterday morning and will remain here for a day or two. He says the city was not large enough for him and McKinley and as the President seemed to be carrying off all the honors he concluded the best thing to do was to get out.

WORK SPEAKS FOR ITSELF.

When you have any jewelry or fine watches repairing to be done take it to Golden's Jewelry Store, none but expert workmen employed. We have repaired over 300 watches in the last month. All work guaranteed. Prices reasonable.

WASTE WATER

Advice Concerning the Use of Money Now Spent on Water Suits.

Nearly every stream in the State is running bank full on account of the melting of the snow. At the present time the water is not used by the farmers and goes to fill the lakes and sinks of the State.

When the time comes that water is badly needed, the streams will be low and a general clamor will be made for it. Law suits follow every year and some one is hurt. If the farmers would put up the money building storage reservoirs that they spend in lawing all this valuable water could be saved. It must make the big ranchers on the river sick when they look at the water that is going past them and know that in the next few weeks they will want it to save part of their crops.

When the farmers form irrigation colonies of their own and hold the spring floods they will solve the problem. A good stream of water in Nevada is as valuable as a gold mine. One look at any river in Nevada at the present time will convince the people that there is plenty of water if only properly controlled.—Appeal.

PERSONAL MENTION

A Batch of Interesting Items by a Journal Correspondent.

"Fatty" Cohn went up to the Capitol city yesterday.

H. B. Maxson spent yesterday in Carson.

George Bryson is down from Carson.

Miss Edith Unsworth is in Carson, the guest of Miss Vanderleith.

Governor Sadler stopped over yesterday while on his way to Eureka.

Prof. Anna Martin addressed the Leisure Hour Club of Carson yesterday.

Mrs. D. W. Dunkle of Wadsworth is visiting relatives in this city.

Judge Krenner of Susanville came up from the Bay City yesterday morning and took the N-C-O. for the north.

MYTHICAL KNIGHTS...

Major General James R. Carnahan of the Uniform Rank, Knights of Pythias, and his adjutant, have gone down to San Francisco to make arrangements for the Uniform Rank K. of P. during the session of the supreme lodge, which will convene there in July, 1902.

It is expected that there will be 15,000 Knights encamped in San Francisco then. The membership of the Uniform Rank numbers about 54,000 men in the United States.

ANOTHER TOUR.

Senators Jones and Stewart are billed to make a tour of the west. It is to be hoped that they will visit Nevada in order to offset McKinley's turn down of this glorious commonwealth. They might learn to like Nevada real well if they'd only come out occasionally and get acquainted.

ERROR IN FIGURES.

It was announced the other day that Mrs. George Sauer would graduate a class of forty students in instrumental music this term. The number named will take part in the graduating recital.

FLOWERS, FLOWERS.

Orders for cut flowers, bouquets and floral designs for Memorial Day left at the store of L. Misavich, successor to A. B. Mannheim, will receive prompt attention.

BE CAREFUL OF YOUR EYES.

If your eye lids become inflamed or your eyes water or burn when reading it is almost a certain fact you need glasses. Go to Golden's and have them examined free of charge. All glasses guaranteed.

HOW'S THIS?

We offer One Hundred Dollars Reward to any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Prop., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligation made by their firm.

West & Traux, Wholesale Druggists, Toledo, O.; W. A. KENNAN & MARVIN, Wholesale Druggists, O.

Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous state of the system. Price 75 cents per bottle. Sold by all druggists. Testimonials free.

Don't think this is a joke.

Look in Our Show Windows This Week!

And see our display of Ladies' Wash Skirts. We will try to please you in both Quality and Price.

Our Colored Shirt Waists will be on sale another week to close them out.

We are always pleased to show our goods.

Another Gold Watch will be given away this month

LITTLE LOCAL BREVITIES

Items of Street and Town too Brief for Separate Heads.

The Reno High School students and alumni will entertain the Virginia High School students Friday evening at the Nevada Club.

The Reno Cycle Co. have a full line of bicycle sweaters, shoes, belts and bike hose. A full line of all makes of tires. Renting. Repairing by mechanics.

Born—To the wife of G. A. Cole, a son.

Train loads of discharged soldiers pass east through Reno nearly every day.

A reward is offered for the return of a lost scarf pin to the Journal office. See the fifty-cent column for particulars.

All persons desirous of taking lessons in instrumental music will be interested in a notice that appears in the fifty-cent column. It is well worth reading.

Since the advent of warm weather the snow line has gradually crawled up the mountains. In all probability, however, there will be considerable snow left in the gulches and on the summit by the time the flakes of autumn fall.

All indications are for a plentiful fruit crop in Washoe county. The buds were uninjured and the young fruit is now so far advanced that the danger line is passed.

NASBY TAKING GREAT CHANCES

Postmaster Nasby has implicit confidence in the integrity of President McKinley; otherwise he would not have shipped him that mess of Trout-trout yesterday. The late lamented legislature saw fit to make a law under which there is a severe penalty attached to shipping trout out of the State, should they be subsequently sold.

If Mayor Phelan or Governor Gass should take a shine towards those fish and give McKinley four bits for them it would be all up with our P. M. The President would also be liable. The Frisco police have been warned to keep close watch on the trout until they disappear in the President's broad basket.

STOPS THE COUGH

And works off the cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, no pay. Price 25 cents.

NOTICE OF ELECTION.

Notice is hereby given that an election will be held in Verdi School District No. 7 on Saturday, June 1st A. D. 1901, between the hours of 1 p. m. and 7 p. m. of that day, for the purpose of submitting to the qualified voters or electors of said Verdi School District No. 7 the question of whether a special tax shall be levied upon the taxable property in said Verdi School District No. 7, as shown by the last assessment roll (after equalization) for the purpose of and to raise the sum of two thousand dollars to be used for building an addition to the Verdi school house, furnish the same and to shingle the roof on the south side of main school house.

Polls will be held at school house.

By order of the Board of School Trustees.

E. F. O'CONNOR,

Superintendent.

OLD SOLDIER'S EXPERIENCE.

ABOUT MINE AND MINER

Notes Gathered From Exchanges About This Indus- try.

Another ore chute has been opened in the Sapho mine at Ely and the property is making a very promising showing.

The mill of the Ely Mining and Milling Company started up again last Wednesday after a shut-down of three weeks for the purpose of making repairs.

A contract has just been let by the Ophir Mining Company for the erection of an \$8000 mill at State line. The company has ore in sight to supply the mill with 100 tons daily for three years.

W. B. Graham now cashes between \$15,000 and \$18,000 worth of checks each month, issued by the different mining companies at Ely, White Pine county, for labor and supplies for the mines.—News.

On Wednesday night, while at work in the mill at Dolan, Chas. Daly undertook to put the belt on the Griffin without stopping the machinery, and was caught by the belt and literally torn to pieces. His legs and arm was torn from the trunk and the body was mutilated. Daly had recently went to work in the mill and was in the employ of the company but a short time. Daly was from Homer, Nebraska.—Record.

Frank Smith Wednesday brought in an eight-horse load of ore from the Reed & Higginson property at Jasper. This is the first ore shipped from the old district in years, and will be shipped to Salt Lake for reduction. Mr. Smith says there are now over 150 tons of high grade ore at the mine awaiting transportation here. It certainly looks as though Jasper is coming to the front again.—Wells Herald.

CARNIVAL IS A GO.

The Carson Street Fair and Carnival was officially launched last evening by the formation of the necessary committees and the election of permanent officers says the News.

The Finance Committee in the short time it was out yesterday collected over \$1400 and this represents about half the population of the town. In addition to the amounts subscribed by our citizens Senators Stewart and Jones and Congressman Newlands will be invited to contribute toward the great celebration. The committee can already see over \$3000 in sight and with the sale of concessions, etc., this sum should be considerably swelled.

The ladies held a meeting yesterday afternoon and elected the following officers: President, Mrs. H. A. Lemmon; Vice-presidents, Miss Vanderleith and Mrs. Huffaker; Secretary, Miss Annie Martin, Assistant Secretary, Miss Beattie Platt.

LITIGATION.

The Wedekind-Bell litigation is probably not over by any means. A suit is pending in which George Wedekind claims \$10,000 damages from Bell, et al. on the grounds of trespass. Judge Currier's recent and much-discussed decision will also be probably appealed from and another suit for ownership of the dip of the Reno Star lead is also billed to be brought in the District Court.

THIS is a Half-section view of the

Racyle

Crank Hanger.

MR. RIDER—If you examine the Crank Hanger of the Racyle, you will see that the chain and sprocket run between the two bearings. Instead of on the side of both, like other bicycles, therefore cutting off all side leverage side pressure and binding on the bearings, chain and sprocket.

"If the Racyle has not the best and easiest running Crank Hanger of any bicycle made, why have seven factories tried to steal its patents?"

The bearings on the Racyle Hanger are in direct line with the center of the Cranks, which throws the sprocket and chain between the bearings. "The heart of a bicycle is the hanger."

These features are what cost a few other manufacturers of bicycles a fortune to leave alone. They cost the Crank Hanger of the Racyle over \$40,000, the Viking \$12,000 and the Cleveland \$23,000.

These factories are today copying the Racyle Patented Hanger as near as they are permitted.

We will be pleased to show you the infringements other bicycle factories had on the Racyle if you call at our store, also show you why you don't have to oil the Crank Hanger of the Racyle for one year. It has a magnetic self oiler.

A Racyle is a bicycle, but a bicycle is not a Racyle.

An Exact Likeness
The greatest trouble most photographers experience is getting an EXACT LIKENESS. Here is where modern appliances come to the rescue. The RIVERSIDE STUDIO is the most up-to-date on the Pacific Coast; the fixtures are all MODERN and none but EXPERIENCED ARTISTS are employed. You can rest assured that if your photograph work is done at the Riverside Studio it will be finished in an artistic manner.
